The insurgents to the number of 5,000 occupied a position on a height, which was stormed by six battalions of Turkish troops commanded by Seret Pasha. Monkeys are very numerous along the northwest coast of South America, but are not found west of the Andes from northern Peru to the south end of the continent. Their home in South America is chiefly in the great Amazon basin and along the fluvial systems of the upper half of the Paraguay and the Parana rivers.

Three persons believed to have been submerged twenty-five minutes, two fifteen minutes, one fourteen minutes and one three minutes have been resuscitated.

The Hydroscope.

By means of the hydroscope, an ingenious instrument, the human eye can view the ocean depths and clearly distinguish objects a mile below the surface.

London Gives Up Hope.

A dispatch from London says: "In approving of Sir Thomas' reported determination not to challenge again for the America's cup the Globe voices the despair which marks all the comment on the cup racing, saying:

"There comes a time when constant and inevitable defeat wears even the most enthusiastic, and Sir Thomas is well advised to relinquish the struggle while his luck is so generally recognized and before his failures have become a jest. While the American yacht builders are so superior to their English rivals we are not likely to regain the cup."

Another dispatch from London is as follows: "A cable dispatch was sent to Sir Thomas Lipton offering to guarantee the expenses if he will arrange for a series of five races between the Reliance and the Shamrock III with their crews exchanged."

A Gift For Sir Thomas.

A committee, with the Western National bank of New York city as treasurer, is being formed for the purpose of raising a popular subscription with which to secure a testimonial to Sir Thomas Lipton. A silver service for the Erin has been suggested as suitable, and it is proposed that all letters accompanying subscriptions be bound and presented with the testimonial. The plan is to have the subscriptions in small amounts from \$1 up so that it may become a popular movement.

A Boarding House Superstition.

"Speaking of bad luck," said a landlady the other day, "did you ever hear that it was bad luck to go back to a house you had once lived in? Well, it is. I heard some one say that when I was a little girl, and some way it has always remained in my mind. If any person who has lived in my house goes away and talks of coming back I always try to dissuade him. One young fellow scoffed at the idea, yet the day after he came back to live with me he lost his position and did not get another until he moved away from my house. He would have stuck it out only I told him I would have to have my room. So he went away, and at once secured another and better position than the one he had when he first came to me."

Sandwiches With Sermons.

Rev. Jacob Kurtz has completed his "church on wheels" and will attempt to hold services on the street corners, says a York (Pa.) dispatch. His idea is to sell sandwiches on the street corners, and while the patrons are satisfying the inner man he will acquaint them with the Bible. Mr. Kurtz has been brought into prominence by the "house top" preaching on Sunday evenings.

Ants on Plants.

The ant seldom injures a plant, although generally charged with all sorts of iniquity in this direction. On the contrary, they often do good work in ridding the plants of the aphides, which if left alone will soon suck away the sap which is the life of the plant.

Big Ships For Great Lakes.

Announcement will soon be made from the Cleveland offices of the American Shipbuilding company of the closing of contracts for the largest ships ever built for fresh water, says a Duluth (Minn.) dispatch. The first of the ships will be out some time the coming year. These new ships are to be 550 feet long over all, probably about 57 feet beam and 31 feet deep. They will carry not less than 11,000 tons of ore or other bulk freight.

The Fly.

The fly develops twelve or thirteen broods every season, and an average of 120 eggs are laid for each brood.

Fontenoy.

The battle of Fontenoy is the only large battle ever fought in which the opposing sides were equal—each 70,000 men—and the losses of victors and vanquished equal also, both being 7,500 men.

Glue.

If glue is soaked in water till just soft and then dissolved in slightly heated linseed oil, water or damp will have no effect upon it.

Leased For Ten Thousand Years.

The title of the Billingshurst estate, Sussex, England, sold for \$3,400, commences with an indenture of lease for 10,000 years from the second year of James I., at a rent of one red rose.

WILL NOT FINISH.

Time Limit Will Again Beat Yachts.

THE WIND HAS DIED OUT

Was 23 Knots This Morning But Flattened to Almost Nothing This Afternoon.

Highlands, N. J., Aug. 30.—Although the weather indications of the early morning were decidedly unfavorable to yacht racing today, the wind flattened out from 23 knots to eight at the time of starting a little after 11 o'clock. After the yachts had reached the lightship it was decided to postpone starting the race until later in the day so that the starting line could be shifted.

Both yachts, after sailing some time, set their still small club topsails.

At a little after 11 o'clock it was signalled that the course would be east, half north to turn and a run home. The starting line was established several miles south by west of the lightship. The wind flattened considerably and was about eight knots when the preparatory gun was fired at 11:30. The yachts crossed the line at the start as follows:

Yacht	Time
Reliance	11:45:26
Shamrock	11:45:28

The yachts stood across the line on a starboard tack and headed toward Long Island shore. The Reliance gained on the challenger from the start.

Both racers put about on a port tack and headed out to sea. By noon the wind had dropped to only six knots. The Reliance continued to increase her lead.

The mist was so heavy off shore it was very difficult for observers to see the yachts and much harder to follow them. The wind was 12 knots at 10:40 and in the rough sea the yachts pounded heavily and threw great cascades of water from under their bows.

At 12:40 the Reliance had gained on the Shamrock so that she was leading by three fourths of a mile.

At 1:25 the Reliance was leading by a mile.

At 1:42 the wind had shifted to off shore and was very light, with little likelihood of the yachts finishing within the time limit.

THE PREPARATIONS.

Plenty of Wind When Yachts Left Anchor This Morning.

Highlands, N. J., Aug. 31.—With the wind 23 knots an hour blowing from the northeast and the sea rough, the regatta committee announced that they expected a race today. The Shamrock left for the starting line at 9:07 and the Reliance followed a minute later. While the yachts were in tow for the starting line they were passed by the United States cruiser Baltimore and Battleship Texas, inward bound. The jacks on these vessels waved their caps and cheered their fellow-seamen on the yachts.

The possibility that there might be no race today depleted the number of excursionists on the boats from the city and only those were aboard who love a smashing on a pitching sea and a smart blow. It certainly was no day for those whose only experience is confined to ferry boats of the Hudson river.

The Shamrock reached the lightship at 10:10 and dropped her tow, broke out her head sail and stood away on a port tack. The wind was then blowing about 15 miles an hour. The Reliance reached the lightship about three minutes later and dropping her tow stood away on a port tack.

DISCOVERED AND SAVED

Was Despondent Over His Health and Lack of Work—Will Recover.

Peter Lozo attempted suicide in his room on Foster street about 8:30 o'clock last evening by taking the contents of an ounce bottle of iodine. Dr. Goodrich was called by the people in the house as soon as they found out what he had taken and soon had him out of danger.

Despondency is said to have been the cause of his act. He is a painter by trade and unmarried. He is about 25 years of age.

ACCUSED OF KIDNAPPING.

Carl Sherman of Springfield Is in Jail at Woodstock.

Woodstock, Aug. 30.—Carl Sherman of Springfield has been brought to the Woodstock jail, in default of \$900 bail, on the charge of kidnapping.

Last week Monday, Sherman, who is a machinist, and Mrs. Eustacia Sherman, wife of Rensselaer Sherman, also a machinist, and uncle of Carl, are alleged to have run away together, and on Wednesday night, after Mr. Sherman had put his three children, a girl of 11 years, a boy of 6, and Clarence, 7 years old, to bed, he went to a neighboring house on an errand, and during his absence Carl Sherman is alleged to have taken the youngest boy, Clarence, out of his bed and dressed him, and to have started with him, on foot, for Charleston, N. H., a distance of six miles.

On his father's return the police were notified and a search was started, and young Sherman was arrested while trying to hire a team at Charlestown to take him to Belknap Falls. He said he intended to take the boy to Worcester, Mass., where he and Mrs. Sherman went when they left Springfield.

He had a hearing in court and waived examination. He is to await the December term of county court. Sherman is about 21 years old. Mrs. Sherman is 33, and is supposed to be in Worcester.

TWO MEN CRUSHED.

Polanders Instantly Killed at West Rutland—Marble Rolled Upon Them.

Rutland, Aug. 30.—John Belore and Joseph Kneteney, Polanders, were instantly killed Saturday afternoon about 4 o'clock in the Sherman quarry of the Vermont Marble company at West Rutland. They were at work with a gang prying up a block of marble from the quarry bed preparatory to raising it to the surface. They had raised it a little and had placed a ball, which they used for the purpose, beneath it when it started to roll down an incline. All the members of the gang, except the two Polanders, escaped, but these two men jumped down to a lower layer directly in front of the block, which fell upon them, crushing them almost beyond recognition.

Belore was 22 years old and leaves a family in Poland. Kneteney was 22 years old and unmarried. The funeral of the two men was held this afternoon at St. Bridget's church.

INUNCTION ON CITY.

Against Cutting Trees in Front of Holden's and Richardson's on So. Main St.

A temporary injunction was served on the city Saturday evening restraining the city from interfering or cutting the trees in front of the property of Mrs. Florence Tilden and Will Holden on South Main street. Notice was also given that an injunction was to be served restraining the city from interfering with the trees in front of the Richardson property.

As surveyed in 1897 the row of trees in front of both houses are in the street, but both parties claim they were never properly notified of the widening of the street. A hearing on the case will be had before Judge Watson tomorrow.

The trees in front of Mayor Jackson's and Dr. W. D. Reid's, on the same street, have been removed. It is claimed by the street department that it did not propose removing the trees in front of the two houses which have secured injunctions.
